

	Job Title:	Makerspace Presenter	Reports to:	Makerspace Librarians
	Department:	Community Learning	Location:	LPCPL Exchange Makerspace

JOB DESCRIPTION

Do you have skills with woodworking, crafting, sewing, digital electronics, or other STEAM (Science, Technology, Engineering, Art, Math) related skills? Would you like to share this knowledge with a group of people?

We are always looking for volunteers to present programs on a wide range of topics at the LPCPL Exchange. Volunteers have presented programs on drones, sewing, jewelry, and much more! Library programs typically last one to two hours. Staff will make the final decisions regarding what programs will be offered, as well as the scope, content, and scheduling based on Library policy and community interest.

POSITION REQUIREMENTS

- You have a special skill, hobby, or other passion and are willing to share information about your topic to teach others
- You welcome working with people from your community
- You are willing to present to a diverse audience with a wide range of abilities
- You are positive, adaptable, and forward thinking
- You display appropriate demeanor at all times; this includes dress, body language, and facial expressions
- You abide by established policies and procedures

FRQUENCY

On a schedule determined in consultation with LPCPL Exchange makerspace staff

PHYSICAL REQUIREMENTS/WORK ENVIRONMENT

- Environmental exposure: exhaust fumes, odors, dust particles and noise
- Mobility: Frequently lifts and carries 10 pounds; occasionally pushes/pulls using cart; frequently sits, stands, kneels, squats, bends, twists, grasps, and reaches above shoulders to move materials
- Moving machinery including 3D printers, laser cutting, sewing, electronics, lathes, and the use of basic hand tools in a lab or educational setting
- Personal Protective Equipment (PPE): gloves, goggles, masks
- Must be able to respond to fire alarms, warning sirens, and phone pages
