

# Brother Embroidery Machine

## Level 1

### Features

- Maximum embroidery area of 4" x 4"
- On-screen design editing capabilities
- 75 pre-loaded designs and 10 fonts
- Ability to upload and use personal embroidery design files

### What You'll Need

- Bring an item to personalize. If you have questions about whether an item will work in the embroidery machine, please check with a staff member.
- Designs must be stitched with machine embroidery thread.
- If you already have a file, please bring it on a USB drive. Acceptable file types include: PES, PHC, DST, PEN
- Limited supply of basic tear-away and cut-away stabilizer is available for use. If you need a specialty stabilizer, please plan to bring your own.

### Please Note

- Do not leave the machine unattended when stitching.
