

# Epilog™ Fusion Maker 12

## Level 3

### Features

- 30-watt CO2 Laser
- 24" x 12" x 7" Work Area
- Rotary attachment
- Can cut wood up to 1/4" thick and acrylic up to 1/8" thick.
- Can engrave on a variety of materials including wood, acrylic, cork, veg-tan leather, etc.

### What You'll Need

- A PDF, JPG, or PNG for engraving
- A SVG file type for cutting
- Compatible materials for your project (glass, unfinished wood, cork, acrylic, etc.)
- A computer is required to cut.
- It is recommended that you bring extra material for testing.

### Please Note

- A staff member must approve all materials before use.
- Metal cannot be cut on the Epilog. Bare metal cannot be engraved.
- The exhaust must be running during the entire use of the machine.
- Do not leave the machine unattended while running.
