

Heat Press

Level 2

Features

- 15" x 15" work area
- Maximum temperature 400F
- Auto-open magnets
- Pressure adjustment
- Emergency release

What You'll Need

- Materials for your project (T-shirt, tote bag, fabric, apron, etc.)
- Heat transfer vinyl or infusible ink
- High-temperature resistant tape may be useful for some projects. Limited quantities are available in the Makerspace.

Please Note

- Do not leave the heat press unattended when in use.
- Use caution – surfaces will be very hot. Keep the surrounding area of the machine clear.
- Staff must approve materials before use.
