Roland CNC Mill

Level 3

Features

- 12" x 15.75" workspace surface
- Auto-change tool holder for up to 6 tools
- Rotary attachment

What You'll Need

- STL file
- A computer is required to print
- Compatible workpiece material (ABS, POM, Nylon, Plastic Foam, Modeling Wax, PVC, Plywood, Hardwood, and Acetal)

Please Note

- This is a precision machine, and projects can take many hours/days to mill depending on setting and size of the project.
- The machine can be left unattended once it is in operation. A staff member will pause and restart any jobs that run overnight.
